To Whom It May Concern:

Upper Hutt City Council have contracted **Jetco Group Ltd** over the last 3 years, to carry out sewer and stormwater repairs using patch repairs, hardlining and chemical crouting of leaking pipe joints. The contracts have varied in range from \$50,000 to \$250,000.

On one occasion they were required to manage a sub contractor engaged to perform dig up repairs and pipe thrusting. This they did efficiently and without conflict.

We have found Jetco's management and operators innovative and willing to share their experience with members of our project teams. The company and their employees are responsive to the needs of the local residents.

The mechanical engineering back up of this company has ensured the equipment performs with few breakdowns and where these.

We continue to use the services of Jetco and are happy to recommend **Jetco Group Ltd** as a drainage rehabilitation contractor.

Yours faithfully,

Remigio Cruz
Drainage Maintenance Engineer
